

Straight Clinician / LGBT Client: Bridging the Gap

The course is a lively and practical guide to the many issues confronting straight therapists working with members of the LGBT community. The presenters encourage awareness of the sensitivity of racial, cultural, religious, class and gender issues among this population, and stress the importance of learning from each client and not making assumptions based on preconceptions or stereotypes of LGBT concerns. The last 20 years have seen dramatic shifts in the general acceptance of gay, lesbian and bisexual individuals, as well as the explosion of trans awareness and activity powered through the internet and other media into the everyday world. Now, as a result of homophobia and other traumatic experiences, these individuals are increasingly likely to seek competent and empathetic therapy.
