

Supervision Certification

The courses described here can either be taken individually or together for a total of 12 hours of supervision credit toward the certification required by Maryland (12 hours) and Virginia (14 hours) to supervise MSW graduates working for a full clinical social work license.

Ethics of the Supervisory Relationship: Power, Trust and Shared Meaning

Because of the fact that supervision is the primary vehicle through which one learns clinical practice and because of the phenomenon of parallel process, a good relationship between supervisor and supervisee is essential. This four-hour workshop introduces participants to a conceptual model that explains the fundamentals of the supervisory relationship and identifies inherent ethical considerations. Participants will have an opportunity to work with self-reflection questions about the basic elements of the relationship: power, trust, and shared meaning. This workshop is first in a series of three that can be taken to fulfill a 12 certification in supervision. *It also meets criteria as an ethics workshop.*

Cross-Cultural Supervision

This workshop will address issues related to cross-cultural supervision and includes a discussion of the dynamics of power, trust and shared meaning (from the first workshop) as they relate to a cross-cultural supervisory relationship. The presenter will introduce a model based on dialectic thinking. Participants will review a self-assessment tool that they can use with their supervisees in order to develop a deeper understanding of each other's cultural context and the impact of that context on their work. This workshop can be taken as part of a three session series to fulfill a 12 hour certification in supervision. *It also meets criteria as training in diversity.*

Practicum on Supervision

This 4-hour workshop will be an opportunity for participants to apply material from the first two workshops of this series through case presentation and consultation. Recruited participants from the two previous workshops will work with the presenter throughout the year regarding both the use of self-reflection tools with their supervisees as well as challenges in supervision encountered in their practice. Those recruited will do formal case presentations followed by discussion. Other participants will be invited to share cases of their own. This workshop can be taken as part of a three session series to fulfill a 12 hour certification in supervision.
