

## Working With Dreams

In this workshop, you will become aware of one of the most intimate conversations we can have with ourselves—dream work—and explore how it can be a powerful technique to use in your work. Since dreams are the gateway into the unconscious, the symbolic representations in a dream state are the players giving voice and meaning to the client's own dissociated or integrated parts. The focus will be on processing different types and pieces of dreams: premonitions, recurring dreams, nightmares, lucid dreaming, changing the outcome of a dream, or finishing an unfinished dream. Participants will experience the use of guided imagery, meditation, artistic expressions, movement and role-playing as techniques to enhance the client's ability to interpret their inner world. Archetypes, symbols and active imagination taken from a Jungian theoretical basis will be utilized to help interpret the dream state. Individuals are encouraged to bring in their dreams or client's dreams to share and interpret as a way of deepening the levels of understanding.
